HST 364 | Spring 2018 | T, Th 8:30-9:50am | 219 Berke

South Africa's struggle for freedom and democracy is one of the most dramatic stories of our time. This course draws on biographies of South Africans—from great leaders to ordinary men and women to explore how and why cultural values, economic interests, and power relationships shaped South African history since 1800. Special attention will be paid to race, gender, class and age as drivers of historical change. The course is divided into four parts: Precolonial societies; Colonialism and Segregation; Apartheid and Resistance; Building Democracy in a Global World. The course will deepen students’ knowledge of southern African people’s complex past and will enhance skills in critical analysis, writing, oral communication, and digital humanities.
